# CYBER SECURITY

There is no such thing as perfect protection, however when it comes to Cyber Security you can mitigate risk by employing the services of PCS. We analyse, assess, report, make recommendation and implement stronger policies.

PCS will assist you in choosing the right services to adequately demonstrate good practices in safeguarding and handling sensitive data, in turn you can show that risks have been addressed in relation to the General Data Protection Regulation (GDPR) which will become law in May 2018.

- Analyse IT Infrastructure & Set Robust Cyber Security Policies

- Satisfy over sixty Cyber Security requirements

- Implement strong Cyber Security practices

- Achieve Cyber Essentials certification

- Ongoing support available

- Reduce risk of a Cyber based security breach

- Employ the services of experienced IT specialists

- Demonstrate robust Cyber Security practices to external parties

- PCS hold ISO27001 and Cyber Essentials Certification
